Dear Parents and Carers,

Year 4 Science – Food Tasting Activity

This half term, the children will be learning about the functions of different types of teeth. As part of our science work next week, we will be carrying out a practical activity where the children will be tasting different types of food. The foods they will be tasting are:

- Apples
- Bananas
- Crusty bread

During the session, the children will taste each food and identify which types of teeth they used to bite, cut and chew the pieces.

If your child has any allergies that we should be aware of, please let us know as soon as possible so we can make suitable arrangements.

Thank you for your support.

Yours sincerely,

Miss Turrell and Miss Challinor
Year 4 Teachers
